

Amendments to the Claims:

This listing will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1.-4. Cancelled

5. (Currently amended) ~~The assembly of claim 1,~~ A folding panel assembly,
comprising:

only vertically-oriented frames, wherein first and second vertically-oriented
frames are disposed on separate spaced apart partitions, the frames being
stationary relative to the partitions and defining an opening; and

a plurality of folding panels, wherein a first panel is mounted to the first
vertically-oriented frame and each successive panel is supported solely by its
preceding panel and wherein the panels comprise a computer controlled display;

the folding panel assembly having an absence of any elements that would
unite the folding panels to horizontal members that would span above and/or below
the opening;

wherein, when the panels are folded together at the first frame, access is
allowed through the opening, and when the panels are unfolded to extend across
the opening to the second frame, access through the opening is blocked.

6.-10. (Cancelled)

11. (Currently amended) ~~The assembly of claim 7,~~ A folding panel assembly,
comprising:

only vertically-oriented frames, wherein first and second vertically-oriented
frames are disposed on separate spaced apart partitions, the frames defining an
opening;

a first plurality of folding panels having a first panel supported by the first
frame and each successive panel is supported solely by its preceding panel; and

a second plurality of folding panels having a first panel supported by the
second frame and each successive panel is supported solely by its preceding
panel, wherein the panels comprise a computer controlled display;

the folding panel assembly having an absence of any elements that would
unite the folding panels to horizontal members that would span above and/or below
the opening;

wherein, when the first and second plurality of panels are folded together at
the frames, access is allowed through the opening, and when the first and second
plurality of panels are unfolded to extend across the opening, each panel having a
furthest extended panel coming together, access through the opening is blocked.
